A MEAL MAKER, COB SMASHER

A New Grist Mill Installed near Eubank's Shop.

MR. WILL H. WILSON, ENGINEER.

Some time ago we announced that W. H. Wilson would put in a corn mill and crusher, deriving power from a gasoline engine. We now take pleasure in stating that the plant has been installed and you can get your corn made into meal while your horse is hitched to the fence. The machinery was all put into position last week and the first corn mashed Saturday. Mr. Wilson is located on the branch, near Eubank's shop, and is convenient for all who wish to patronize him. His power is derived from a six horse Fairbank & Morse gasoline engine that works to perfection. He is not only prepared to make meal, but has an up-to-date crusher to prepare feed for stock.

We can not see why a mill of this kind should not be kept busy all the time, and it is freely predicted that it will meet with a most liberal patronage. Mr. Wilson has had several years experience in a mill and is therefore thoroughly prepared to give the best results.

Lively Business.

The Produce firm of Grinstead & Co located on Happy Street this city, under the management of Claude Hobson has been doing a thrifty business for the last few days in the poultry and egg line. Last Friday morning a shipment of 3150 dozen eggs and 2500 pounds of poultry was started for the larger markets. This firm ships direct to New York. The above is about an average weekly shipment for this season of the year, but within a very short time the trade will pick up until it doubles in value. As little as the people think about the poultry business, yet it is one of the great money producers of this section and beyond a doubt brings in more money than any other product that goes on our market.

Getting Wealthy.

Mr. J. G. Sublett, of Cane Valley, was in Columbia last Thursday, in response to a notice received from the Board of Supervisors, which was in session at that time and whose real desire to advance the interest of this section can not be questioned. Mr. Sublett faced the quick step of advancement in the best of humor and felt happy in the thought that he had unconsciously entered the path that leads to wealth, and within the last two years his holdings had been advanced \$1700. He was not lifted out of his boots, as the old saying goes, but just a few taps put under his heels. The truth is, the aforesaid gentleman stands for improvement, believes in advancement and rejoices in the onward movement of our country, and especially in the expanding activities of Cane Valley.

"The Home Coming Week", under the auspices of the Equiville Commercial Club, will bring back to the old Kentucky home, thousands of Kentuckians residing in different parts of the country. This ingathering of the thousands who have gone from our State will be one of the happy events of the year, and those who make the visit back to the old State, will meet the friends of their youth who have lingered round the scenes of childhood and also those who have gone to other parts.

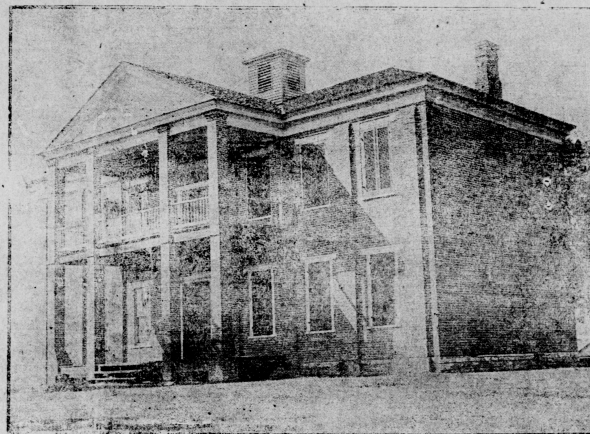

Mr. T. S. Nelligan, district manager of the Woodmen of the World, is in Columbia and already has enough members pledged to make a good, lively charge, and still the work proceeds. The Woodmen of the World is a fraternal insurance order and has many attractive features. All who join now, receive special dispensation regarding entrance fee. The outlook here is very flattering for the order, many of the young men joining.

Rev. Wm. Wamach died at his home last Sunday night, in the Gentry's Mill country. He was a member of the Masonic order and was buried today by the Egypt Lodge. Mr. Wamach had reached a good old age, being over 70 years old. He was a Baptist minister and while not an educated man yet he served as best he could in his day. He was also an old soldier. The burying was near his home.

Mr. B. F. Mays, of Kidds Store, is visiting Mr. R. G. Price, this city.

CIRCUIT COURT.

Judge H. C. Baker convened court last Monday and gave rigid instruction to the grand jury to investigate all infractions of the law, and not to fail to indict any one who is proven guilty of law breaking. We did not hear his charge, but have been told that it covered every position of misconduct, and impressed the jury with the importance of their verdict and action.

GRAND JURY.

E. E. Nell, Foreman, Geo. F. Hundley, G. B. Smith, W. W. Sherrill, J. H. Tucker, Sam L. Banks, Harrison Moore, T. O. Leicher, Jesse Bryant, T. W. Montgomery, Luther Brockman.

SMALL JURY.

The following gentlemen comprise the two panels of the petit jury: J. E. White, M. W. Shirley, Mack Coomer, Claud Callison, Jas. Suddarth, J. R. Gaskins, Porter Flowers, Jeff White, H. K. Taylor, R. Tandy, W. B. Dulworth, C. C. Stephens, Ambrose Burton, J. W. Coy, R. G. Price, W. E. Fraser, W. H. Lemon, G. T. Sherrill, W. E. Reed, T. A. Bottom, T. B. Grant, H. P. Barger, Geo. Staples, J. K. P. Conover.

Monday was first day of Circuit Court and a large crowd was in town. Business in every line was active and especially with the News. We thank the many whose names are on our paid list and trust that others will realize that it is their privilege, as well as their duty, to pay.

W. F. Jeffries & Sons have recently made valuable improvements in their elegant business house. A new counter, show-case, and shelving may be the fulfillment of a new year resolution or the result of necessity, but from the increase of their trade and the rapid growth of their large stock of hardware, it appears that pressure forced the improvements. At any rate, the change greatly improves the appearance of their store as well as adds to its convenience.

DIRIGO.

Notwithstanding the season of the year, the health of the community is very good.

Our merchants, McClester and Pulliam, are having a good trade now.

Our mill men are doing a fine business. They are rapidly converting the timber into lumber, most of which goes to Nashville markets.

As Dirigo is a new place perhaps some of the readers would be glad to know where it is. It is on Harrods Fork, near the old monument—one of the grandest natural scenes in the commonwealth. Although a new town we have one dry-goods store, a Post-Office two saw mills and one grist mill in operation, and another to start in the near future.

Parker Myres and family who have been citizens of this community for the past two years, removed to Sparksville last week.

Landy Stotts and J. G. Campbell are each erecting new residences here. They intend to occupy by early spring.

Shelby Royse, our up-to-date photographer spent several days last week in Cumberland county.

Scoffers, who doubt that prayer is answered when the petition is made in the right spirit, may now take a back seat, for a most convincing example occurred here Sunday night. Some days ago a prominent gentleman in town lost a valuable note. It represented several hundred dollars, and the loss of it meant worry and inconvenience. He searched his office thoroughly, the home, and everywhere he was likely to have misplaced it, but no note came to light. He finally gave it up as lost. Sunday night he and his good wife attended the Methodist church, and something in Rev. Vaughan's splendid sermon re-inspired their faith. On reaching home his wife said: "I shall kneel down and pray earnestly that you may find that note, and I believe the Lord will answer it." She thereupon knelt and sent up an eloquent and fervid appeal to the Great White Throne, and they both retired, comforted to a restful and peaceful night the first they had spent since the note disappeared. The next morning the gentleman went to his office and unthinkingly walked straight to the place where some old papers had been stored, and picked up the lost note. It was in an out-of-the-way place, where he would never in the world have thought of looking for anything so valuable. He is confident it was in answer to his wife's prayer that the Lord so quickly and unerringly directed his feet in the right direction.—Harrodsburg Herald.

GLENVILLE.

in this community.

On Dec 31st., at Dr. W. M. Blair's quite a number of relatives met Miss Blair's brother and niece, who live in Texas, and a most excellent dinner was prepared.

Mr. Stephen V. Wilkinson, who has been talking of buying property in Columbia, has about decided to stay on his farm at Glensfork. He has erected a very desirable wood-house, F. Conover being the boss carpenter.

Mr. L. J. Wilkinson is making an addition to his house when it is finished it will be almost as good as new.

Mrs. Mary L. Wheat fell the other day and fractured her collar bone. She is slowly improving.

Little Miss Clara and Mattie Blair visited Mrs. Phelps Saturday evening.

H. K. Taylor has erected him a new blacksmith shop in this town. He is equipped with a new set of tools, so he is ready to do your work when you call on him.

The Masonic Brethern have finished their new hall at this place.

Mr. Willie Garnett who has been very low with fever is improving slowly.

On Dec. 20th, there was a message come to Mrs. Etta Wilkinson stating that her brother Mr. James Wilborn was dead. He passed peacefully away at his home, Highland Falls, N. Y. the cause of his death was pneumonia. Mr. Wilborn leaves a wife and a number of sorrowing relatives to mourn their loss. He lived on Glensfork until he was about 18 years of age. He has belonged to the standing army about 20 years and was still a soldier when the Death angel called him home. We know we shall never see him on earth any more, I hope we will meet him on that beautiful shore where sad partings come no more.

What the Editors Say.

"After all what is the difference," says the Winchester Sun-Sentinel. "Paynter is as good as Blackburn, and Blackburn as good as Paynter."

Democrats, according to the Winchester Sun-Sentinel, never know about anything until after it is done, and then they raise a howl about it.

State press publishing statements of interior towns banking institution showing all to be in a most prosperous condition, and declaring dividends on stock.

The Maysville Ledger would like to know if there isn't one man in the Kentucky Legislature who has nerve sufficient to introduce a strictly non-partisan election law and by it immortalize himself.

The Stanford Interior-Journal says that because of the resignation of O. G. Harrison, of the McKinney Deposit Bank, the directors would be glad to communicate with a good sober, reliable man to succeed him.

Owingsville Outlook says the prohibitionists will have a hard fight when they attempt to vote the sale of intoxicants out of Montgomery county, and especially in Mt. Sterling.

Owensboro declares against Judges of the courts mixing in politics. The "Judge who will drag the bench into politics," says the paper, "will not mind the statute on the subject."

Voting machines, at a cost of \$600 per, the Grayson Tribune regards it as a piece of economy to let the machine which has been doing the counting for the 2,000 voting precincts continue and wait until it slips a cog, which is bound to wreck it.

Woman's Realm

Milady's Purse.

She was an heiress, and the purse she carried in her dainty hand might well be the fortune re-imburse of any spendthrift in the land. At least most men imagined so. Yet they for years might rack their brains, And after all would never know The total wealth that purse contains. So here in full we give the list, From which no item has been missed: A bit of string, a buttonhook, A clipping from a cooking book, A little Turkish cigarette, A bit of gum (unused as yet), Samples of gingham, organdie, Chiffon, crepon and dimity, Besides a shred of mousseline De soie, a worn out safety pin, A collar button made of bone, A lock of hair (perhaps her own), A fashionable modiste's card, A strip of blue and white foulard, A picture postal card from Rome, And half a dime to take her home. Toilettes.

Said About Woman.

Second thoughts are best. God created man; woman was the after thought.—Proverb.

I have been ready to believe that we have seen a new revelation and the name of its Messiah is woman.—Holmes.

The whisper of a beautiful woman can be heard futher than the loudest call of duty.—Anonymous.

The man who enters his wife's dressing room is either a philosopher or a fool.—Balzac.

Two women placed together make cold weather.—Shakespeare.

Physical love is an ephemeral spark designed to kindle in human hearts the flame of a more lasting love. It is the outer court of the temple.—Sabatier.

Between the mouth and the kiss, there is always time for repentance.—Ricard.

Love decreases when it ceases to increase.—Chateaubriand.

Partake of love as a temperate man partakes of wine; do not become intoxicated.—De Musset.

Be circumspect in your liaisons with woman. It is better to be seen at opera with this man than to be seen at mass with that woman.—Mme. de Maintenon.

A woman never commands a man, unless he be a fool, but by her obedience.—Turkish Spy.

In the highest society, as well as in the lowest, woman is merely an instrument of pleasure.—Tolst.

I have seen many instances of woman running to waste and self-neglect, and disappearing gradually from the earth, almost as if they had been exhaled to heaven.—Washington Irving.

A Farmer's Wife's Epitaph.

WRITTEN BY HERSELF.

Here lies an old woman who always was tired,
For she lived in a house where help wasn't hired.
Her last words on earth were: "Dear friends, I am going
Where washing 'aint done, nor baking nor sewing;
And everything there will be just to my wishes,
For where they don't eat there's no washing of dishes.
I go where loud anthems will always be ringing;
But having no voice I'll get rid of the singing.
Don't mourn for me now, and mourn for me never.
For I'm going to do nothing, forever and ever.—Ex.

Winter Salads.

Bermuda onion and watercress make a good combination either in a salad or a sandwich. The addition of a little horseradish

gives an extra flavor to the combination. When the onion figures in a sandwich, scrape or mince it. In the salad, slices are better.

A cabbage salad, if delicately made, is very good indeed, and is also very cheap. Chop the cabbage fine, almost to a mince, in fact, and mix it with a few blanched walnut meats. Mix with a good mayonnaise and serve on the tenderest of cabbage leaves. Sprinkle thickly with paprika.

Grape-fruit salad is one of the most delicious in the catalogue, and it is not necessarily an extravagant salad. The fruit can be purchased in the large markets or on downtown fruit stands at astonishingly low prices. Cut the fruit in slices, and with a sharp pointed knife cut close to the membrane in each section, and take out the pulp in plump pieces. One fruit of medium size will make enough salad for two persons. Make a French dressing, substituting lemon juice for vinegar, and paprika for pepper. Or make a delicate mayonnaise dressing, which is perhaps more suitable for the fruit. Pour the dressing over the fruit and mix very carefully with a silver fork. Serve on lettuce leaves which have been dressed with a French dressing. A very fine lettuce will do.—New York Post.

White Goods.

"Everything is wider."

Suitings are sheeting width.

Lawns, it seems, will never down.

Batiste holds its time-honored place.

Only 82 Years Old

"I am only 82 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Brunson, of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable length of time. Guaranteed by T. E. Paull, druggist. Price 50c.

CHAS. S. HARRIS, Editor.

Democratic newspaper devoted to the interests of the city of Columbia and the people of Adair and adjacent counties.

Entered at the Columbia Postoffice as second-class mail matter.

WED. JAN. 17, 1906.

The slowest big thing and the biggest slow thing that the Government ever tackled is the canal. At present rate of pushing business there will still be stones and dirt in the way when the year of 2511 has passed.

We noticed in a country paper last week the following: "Quite a lot of valuable matter was crowded out this week but we will try and give our readers more home news from now on." As we look over some of the sheets that come to our table we are so often reminded of this lamentable state of affairs, really more out than in. The fact is that some publishers leave it nearly all out and then abuse the people because they do not like the paper and will not subscribe and pay for it. We must all do more because more is demanded and justly so. A newspaper deserves patronage only to the extent of its service, and if it fails to measure up to the needs of a community it can not hope to share in the good will of those who surround it nor enjoy the luxury of a good healthy business. There is ample room for the best to improve and just how it is or why it is that some publications are so indifferent to the welfare of their respective communities and why they do not give more local news, is a question we can not understand. The publication offering the above excuse and pledging something, it doubtless will never give, is printed in another State, beyond the Mississippi. It did not contain two columns of home span news nor one ounce of encouragement for its people, home or country. Put it in and not leave it out and there will be less room for apologies.

MONTPELIER.

There is a good deal of complaint and kicking in this community against the Board of supervisors raising the value on land. It seems that there is a wide difference in the opinion of the supervisors and the land owners as to the value of property. Some of our people have put in their complaint and got a reduction, others have said their say and let it go. Dr. Jones says his farm is not worth any more to him now than when he bought it and he doesn't want to sell it. He wants the Board to come and see the poor knolls and marshy spots on his farm. This suggests the need of a better system of assessing property. There are many people swearing falsely every time they give in their lists. They don't seem to realize the meaning of false swearing or the full measure of its consequences. Their names to that oath will face them at the Judgement unless they repent, yet they pass it lightly by. I was talking to a man one day and I asked him what he listed his farm at per acre, and he said, \$30. Then a little later in the conversation he said he had been offered \$60 per acre for his large farm. I said why did you list it so low? and he replied that he thought that was about the way others listed theirs. But he had signed his name to the oath that he had given in his property at what it would bring.

I knew another man who listed only \$600 in cash and had \$1,400 in the bank at the time. So many people think they are not under any obligations to give in their property at a fair cash value. Then a great many others list in the same proportion that they think their neighbors do. There motive may be right but their oath is there the same. If the Legislature would pass a law, requiring the assessor with two other good men to visit all the homes in each county, and make and honest inventory of all the lands in each county, and then keep that list and let the assessor be governed by that assessment each year unless a change in value has occurred then make his assessment according.

Not even ask the owner to value his land. Only ask him if he has bought or sold any during the last year. Then let the assessor place a uniform value on stock of all kinds. He ought to be a man posted as to the price per pound of hogs, cattle,

etc. The money question can not be reached much better than by the present system.

Such a system as the above has been in operation in Missouri for a long time and it saves the people from the embarrassment of false swearing.

But I did not start out to write an article on tax assessments.

We are glad to welcome our old neighbor Polk Conover back to his old home but sorry his family has been reduced so much and so few of them are back with him.

Miss Bertha is the only one of the Children that is likely to be at home much, but that is to say our families go large ones soon get scattered. The writer is undergoing that experience now. Jo will leave with Ray Conover for Indian Territory next Tuesday.

Sallie has gone back to Cincinnati. So we are the only two left and we may leave too.

Mr. T. G. Hadley has recently put up a new barn.

Mr. Moore, of the Green river country, has rented the Jeff Epperson farm, and has taken possession of same.

Miss Ella Cundiff, of the Mt. Pleasant neighborhood, will begin next week teaching a class in music at Mrs. Addie Taylor's. Miss Cundiff is an excellent

young lady, has had considerable experience in teaching and we feel satisfied that she will have a good class.

Mr. Sam Wheat surprised his many friends on Thursday the 4th, when he drove up to Montpelier with his bride, called for the minister and handed over his papers indicating that a marriage ceremony should be said which would cement two loving hearts in the dearest union that belongs to this life. We extend to the new bride and sister-in-law, a hearty welcome to our community. Mrs. Zilpah Dunbar Wheat needs no words of commendation to introduce her to our people. Suffice it to say that she is an excellent young lady with many graces of body and mind. Mr. Wheat is a young man of many noble characteristics. Kind in heart and pleasant in manners and trust that they will have a pleasant voyage through life.

I must mention here a very commendable act of kindness recently shown by Sam in memory of an old colored man, John Z. Miller, a highly respectable citizen, who had lived at Montpelier for 35 years, died last summer and Sam and Jo had a suitable monument made and placed at his grave. Few young men would have thought of such kindness as that.

Last week was rather on the disagreeable order, but in spite of the disagreeable weather quite a number of our best citizens were in town and nearly every one was looking into the value of Adair county dirt.

Dr. W. E. Lester, of Kendall, is now located in Jamestown for the practice of his profession. Dr. Lester is well up in dentistry and the people of Jamestown and the entire county, will doubtless give him a liberal patronage, which he so richly deserves.

Mr. R. K. Young, some time ago reported an 800 pound porker which was the estimate placed by several of his neighbors. Now comes Mr. O. H. Morrison, of Bliss, and states that he salted down one in his smoke-house a few days ago, that was guessed at 850 to 900 pounds. Mr. Morrison's swine was Polan China and Red Jersey.

There was nothing of general importance transacted in the last meeting of the town Council but there is not a doubt but what momentous propositions will be disposed of in the near future, and the old town thoroughly awakened. It is plain to be seen that the present board means to inaugurate progressive movements that will result in much good to the town.

There are several who have promised us wood to pay for their subscription for the last two or three years, and up to date have not brought it. To be plain, we are tired of such promises that do no good. Within a short time, your name will be taken from our books and the account given to someone to collect. If you know yourself to be in debt such a promise, then this is directed to you.

Died, on the 27th of November, at the home of his son-in-law, Jas. T. Taylor, Wm. Walkup, aged 88 years. He had been in failing health for some time but the immediate cause of his death was thought to be kidney trouble. The deceased was a native of Adair county but removed from his home near Greenville, to White county, Ark., in the fall of 1868, and from there to Indian Ter., a few years later, where he had since made his home. He leaves many relatives and friends in both States. The interment was at the family burying ground.

Mr. J. W. Moran exhibited some old American coins in this office a few days ago, one was a copper cent piece nearly as large as a half dollar in silver, and bore the date of 1830, a three cent piece coined in 1852, and a twenty-cent silver coin. Spanish, the date being 1826. Both of the American pieces have long been out of use and their coinage discontinued. Doubtless the mints of Spain have likewise discontinued grinding out face-similes of the specimen above exhibited.

Mr. T. J. Bryant was in town Saturday and left 81. with the News.

It was a cold, hot time last week, so to speak, the supervisors were at work.

W. L. WALKER.

Mr. G. A. Atkins was in town one day last week, informed us that the advertisement of their cattle in the News, brought them three letters within three days after the paper was issued and that the cattle was sold immediately, to Sanders & Fox, of Lebanon. The sale in the Land, Stock and Crop Column.

Mr. W. R. Lyon, once our townsman, but now of Campbellsville, was here last week looking as merry as a lark in Summer time and handing out samples of Reynolds sun-cured tobacco. Mr. Lyons' love for the sunny side of Old Kentucky is so deeply imbedded in his makeup that he has never accepted a position that would not lead through Columbia. He enjoys an excellent trade throughout this county.

Mr. Manna Kemp, of Keltner, was in Columbia a few days ago and informed us that the people of that part of the county were fairly well pleased with the prices they are receiving for their tobacco and that preparations for the 1906 crop are already under headway. Everything indicated that the largest acreage ever planted in the county, will be set this year. Many of our most industrious and enthusiastic growers of tobacco are now burning plant beds and some have already heat at the start for 4 or 5 plant nurseries. Almost the entire crop will be burly.

By reference to the land, stock and crop column, this week, it will be readily seen that the real estate is moving up in Cane Valley. The Banks store house that sold for \$500.00 last week only brought \$300.00 6 months ago. The other sales reported are at an advanced price over a few months ago. Cane Valley has been not making any loud pretensions but has steadily improved all the while. Our corresponded from that city was in our office last week and left well equipped for a weekly report for more than two months. Let her come breezy J. G. and you will feel much better and so will we.

Last Tuesday, the 9th, the stockholders of the First National Bank elected officers for the ensuing year, and no well pleased were they with the election of one year ago, that no change whatever, was made. J. O. Russell, President, H. N. Miller, Vice President, E. H. Hughes, Cashier, and Bruce Montgomery Assistant Cashier. Mr. Montgomery has been assisting the cashier for a few months, and has proven his worth and adaptability to the position to the entire satisfaction of all interested parties. A better man could not have been selected. Within the care of good safe men in the banking business the First National has been blessed from its beginning, and its healthy reports and growth in business warrant its stockholders in holding on to the men who have guided it from its opening to the present. The officials are known as safe, conservative men, just such men as are needed in the conduct of banking institutions.

A Big Raise.

The Board of Supervisors finished work last Friday and each member left with a home that day being severely criticized by some and fondly endorsed by others, but in the midst of this predicament, each one stated that he had faithfully and impartially discharged his duty as he understood it, and while the Board has doubtless made some mistakes, yet the same was not intended. From our conversation at different times, with those who were doing the work. We believe that every one was trying to do what he believed was right. We do not doubt that some mistakes were made in the equalization of values and also in the reassessment but to our mind the property valuation of this county is not yet up to its cash values. In summing up the work we find that the Board acted on property assessed at \$164,755 and raised its value to \$274,089, which is an increase of \$109,334. Property not listed was fixed at \$12,375, so the entire advance amounts to \$209,274. The entire taxable property now amounts to something over \$2,000,000. We are getting out of the pauper list of counties.

A Healthy Growth.

From May, 1905 to September, the same year, the county clerk recorded 154 deeds, 61 mortgages and issued 30 marriage licenses. From September to January, 13, 1906, he recorded 258 deeds, 50 mortgages and issued 56 marriage licenses. This is a positive proof that real estate is advancing and becoming more active, while the decrease in mortgages alike testifies to healthy business conditions throughout our county. The increase in marriage licenses is not to be unraveled by us, but it looks like the great wave of love is gaining force and binding heart to heart to fight the battles of life unitedly and with force and effect.

Will Wholesale.

Bowling Green is to have another new enterprise. It is to be a coco-cola factory and will make the old original article as it was first put up at Atlanta Ga. The firm who will manufacture it are R. B. Wilson & Company, who come from Adair county. They have leased the old Methodist church property on State street and will operate their plant there. They have already purchased the machinery, and are fitting up the building and expect to be ready to begin operations within ten days. They will do altogether a whole sale business and there can be no doubt that they will soon build up a large patronage. The goods they put upon market will be the purest and best and it will unquestionably find a ready sale. —PARK CITY DAILY NEWS, BOWLING GREEN.

Mr. Gilbert Jesse and Miss Lydia Wheat, of Bowling Green, were married last Sunday at the residence of Mr. Baker Jesse, Rev. Thomas Jesse officiating.

Mr. S. H. Fisher, of the Green river country, was in town Thursday and called and subscribed for the News. Mr. Fisher has the activity and appearance of a man of 65, although he informed us that he was 30 years of age. He has been an active farmer and yet does a good deal of work. The occasion that brought him to Columbia was to see the Board of Supervisors, who had notified him of the upward tendency of real estate on Green river, and regardless of the rain he was on time. Mr. Fisher stated that he still enjoys good health, and was doing more than a child's part on his farm. His compliments to the News was encouraging, and we would feel better, if not do more, should we have more calls from such citizens.

Fred McLean relates an amusing incident that occurred during his recent visit to the southwest.

One day in a little town in Arkansas, a gentleman who is now a Democratic candidate for the nomination of Circuit Judge in that district, came from a neighboring town to make a speech, in going around the little city meeting and shaking hands with his friends, he was introduced to me, said Mr. McLean, and handed me one of his cards. We engaged in pleasant conversation for a few moments, during which I told him I was a Republican, and from Kentucky, and could not help him any in his race.

"You from Kentucky?" he asked in surprise—"Why certainly my friend, I replied, don't get nervous, there's no danger." "Are you from that fighting county?" (meaning Breathitt.) he further inquired? If you are, he continued, you can have the whole sidewalk if you want it.

When I informed the gentleman, said Mr. McLean, that I was not from so much space, and that all Kentuckians were not walking arenas, and that I came from a county high up in the notch of civilization, he laughed heartily and said he never had believed that Kentucky was near as bad as it had the reputation of being for lawlessness and crime.

FOR ANNOYING THE PRESIDENT.

NEW JERSEY MAN ARRESTED BY
SECRET SERVICE OFFICERS.

For Months He Has Been Writing Let-
ters Attacking Roosevelt For His
Canal Project, Etc.

Montclair, N. J., Jan. 6.—John Peabody, who lives just over the Orange mountains, here, was arrested by secret service officers from Washington on a charge of annoying President Roosevelt. For months the president, it is alleged, has been receiving letters attacking him for his position on the Panama canal question, on road rates, and in fact in every prominent public matter that has come up for discussion. These letters are said to have been offensive and were mailed at different points in this section, some at Bloomfield, some at Montclair and others at Verona. The writer gave his name but not his address, and there was much difficulty in finding him. The detectives say he was finally found here in a public library, where he was preparing another letter when he was arrested. Peabody was taken before the officers and after a severe lecture, and upon promising to cease annoying the president with his letters, he was allowed to go.

Clemency in A. T. Patrick's Case.

Albany, N. Y., Jan. 6.—Gov. Higgins received a petition for the exercise of executive clemency in the case of Albert T. Patrick, the New York lawyer, confined in the Sing Sing prison, under sentence to die for the murder of the aged millionaire, William Marsh Rice.

The petition is signed by nearly 100 well known persons, including lawyers, physicians and chemists, clergymen and laymen and is based upon the ground that there is reasonable doubt of his guilt.

The signers of the petition include Grover Cleveland, John G. Carlisle, Ex-Supreme Court Justice Edward W. Hatch and a large number of prominent members of the New York city bar; Samuel L. Clemens (Mark Twain), Allan McLane Hamilton, the well known alienist; Dr. Austin Flint, head of the Bellevue medical school, and many other physicians and chemists of standing; Rev. Dr. Charles H. Parkhurst, Rev. Dr. Madison C. Peters, Rev. Dr. Thomas Hughes, David Belasco, Lieut. Col. H. D. Burp, U. S. A., retired, and Robert Driskin, Ky. director of the league for political education.

CHINESE COMMISSIONERS.

The Party Arrived at Honolulu on the
Steamer Siberia.

Honolulu, Jan. 6.—The steamer Siberia arrived here, bringing a party of 59 Chinese, including two commissioners of the emperor of China. They are en route to the United States and other principal countries of the world to study industries and political conditions.

Secretary Root cabled Gov. Carter several days ago requesting that the distinguished Chinese visitors be shown courtesies. They were received by the officers of the National Guard and escorted to the consulate. The commissioners called on the governor at noon and were received by him, assisted by a delegation of prominent local business men.

In the afternoon Judge and Mrs. Dole gave a reception in honor of the visitors. Many members of the party are young men who will be placed in American educational institutions or in commercial positions.

New Mexico Withdrawn.

The distribution by acres is as follows: Arizona, Navajo reserve, 2,516; Black Mesa reserve, 230,000; Huachuca mesa, 245,000; New Mexico, Magdalena reserve, 148,000; San Mateo reserve, 460,000.

It is Not Considered Necessary to
Call a National Strike.

New York, Jan. 6.—Frank M. Ryan, president of the International Association of Structural Ironworkers, took personal charge of the strike of the union men here for an increase of pay from \$4.50 to \$5 a day. He said he found conditions so satisfactory that he did not now consider it necessary to call a national strike.

LESSONS FEELING OF PAIN.

Rays Tried for Restlessness of Suffer-
ing Infants and in Asylums
in Cases of Mania.

London.—Interesting experiments with blue light as an agent for producing analgesia, or insensibility to pain, the discovery of Prof. Hardard, have been carried out by Dr. Harvey Hilliard, anæsthetist to the Royal Dental hospital of London. In an article in the Medical Times and Hospital, Dr. Hilliard states that he found that a blue light had on himself a most distinctly calming influence, a desire to close the eyes and sleep is experienced, and, after a few minutes, sensibility to pain is lessened. For instance, the difference between a light pressure made with the tip of the little finger and a needle could not easily be detected, and surgical needles could be pushed into the face, lips, gums or arms and blood drawn without actual pain being felt unless a still deeper pressure were exerted.

He found that the presence of a blue lamp suitably placed might give satisfactory results in the treatment of insomnia, owing to its calming influence. I have tried it with some benefit in one case, and similarly in restlessness of infants suffering from a mild illness, and in asylums in case of mania, it is conceivable that blue light rays might be of value. This view is supported by the fact that red lights have been found to have a beneficial effect upon smallpox, as it is believed to destroy the vitality of the germs of that disease.

Dr. Hilliard gives instances of the utility of the blue rays in the case of the extraction of teeth. One man said under his influence he felt no pain when the molar was extracted, and returned to have two others removed by the same agency.

WORKS FARM LIKE A MAN.

Wife of Man Who Becomes Insane
Saves Property by Her Exertions.
—Compulsively by Judge.

Knightstown, Ind.—The final settlement in the Henry circuit court of the estate of George Shewmaker reveals the fact that the plucky little woman made a brave fight to save the farm, support two children and maintain the family respectability after she had been deposed of her husband's help when he was sent to the insane hospital. A few years ago, when Rufus Shewmaker was murdered by John Tarwey, George Shewmaker, brother of the murdered man, went insane from brooding over his brother's untimely death. He left the farm to his wife, and when he was committed everyone thought the farm would revert to the original owner.

Not so, however, for the brave little wife set her teeth to work, met all the notes as they fell due, paid the taxes regularly and the court has just appointed the administrator of the estate to turn the farm over to her.

All the while Mrs. Shewmaker worked the farm herself, marketed the crops and did all the farm work with her assistance and at the same time she reared her children to school. When Judge Morris issued his order he publicly commended the little woman for her brave fight she had made and declared that it was more than many men could have done.

WHO OWNS THESE TEETH?

That Is Mystery That Is Agitating
Ypsilanti, Mich., Mill Workers
Who Get Queer Packages.

Ypsilanti, Mich.—There is a new version of the Chinatown story which is more up to date than the original which has done duty through several generations.

According to the new one the modern prince is going about Ypsilanti inspecting the mouths of would-be princesses to see whom a wandering set of upper teeth may possibly fit.

Recently when the post office carriers made their collections from the city mail boxes one of them discovered a set of false teeth in one of the boxes. The teeth were not wrapped up or labeled as to their destination nor was postage prepaid. So that the authorities have no idea as to their ultimate destination. Just how they came there is also a mystery and whether some night wanderer tried to swallow the mail box and got too big a mouthful, or whether the teeth were destined as a gift for some member of the force, is not known. The teeth will be kept a week and then returned to the dead letter office as unclaimed matter.

LEFT FORTUNE BY A "VAG."

Denver Sheriff Befriended Stranger,
Who Wills Him \$32,000 at
His Death.

Denver, Col.—Felix O'Neill, formerly sheriff of Denver county, has just received \$32,000 by will from a man named Garrity, who was serving a sentence for vagrancy when O'Neill, then a detective, became interested and helped him upon his feet. Garrity told the officer that he had come west to make his fortune and was penniless, and O'Neill, with a kindly heart, took the man to his home after he had left jail, fed and clothed him and gave him a start. The old man soon left Denver, but often returned and O'Neill never had a trace of him.

The ratio of pauperism in London has risen from 21.8 per 1,000 in 1900 to 26.4 in 1905.

DOINGS OF THE LEGISLATURE.

The "County Unit" Local Option Bill
Introduced in the Senate.

Frankfort, Jan. 12.—The old "county unit" local option bill was introduced in the senate by Senator Cammack, which provides that if the whole county votes "dry" at the same time, then the precincts that voted "wet" shall go with the majority and remain "dry," but if the whole county goes "wet" then those precincts that are already "dry" shall remain "dry." It will cause the same old hard fight as in former years, for the liquor men are opposing the bill. Senator Harbison offered a bill to increase the pay of the state railroad commissioners and adding to the present overworked clerical force.

By resolution the house fixed January 30 as Goebel Memorial day and a committee authorized to select an orator and arrange a proper program. Representative Overstreet submitted a petition largely signed asking for the repeal of the law against net fishing and asking for a law to protect fish. A concurrent resolution urging the senators and representatives from Kentucky in congress to use their efforts to secure improvements in the waterways of the state was offered by Representative Gabbard, of Owensboro. J. T. Morris, of Odhams, presented a petition from the inmates of the Kentucky Confederate home asking that the legislation providing for pensions be favorably acted upon.
